

## TRANSTANK EXPLODES INTO MAGAZINES

Transtank continues to grow in strength with the announcement of the acquisition of containerised explosives magazines manufacturer, Golden West Explosives.

The acquisition both expands and compliments Transtank's specialised range of portable containerised solutions and adds further expertise to its' manufacturing capability. Transtank will be marketing the explosives and dangerous goods store containers as an extension of their existing product range.

The magazines, which are specially designed for explosives and related equipment storage, are manufactured as new containers, **not** converted from old used shipping containers. They meet rigorous standards in quality, durability and security. The containerised magazines comply with Australian Standards 2187.1(1998).

Our product range includes 10ft, 20ft and 40ft Storage Magazines, Detonators Magazines and Ammunitions Storage Solutions.

Magazine Size	Approx.Weight	Capacity
L 1.2m x W 1.2m x D 1.2m	0.80 tonne	0.25 tonne
